Adam Myers

253-973-4934 - adam@amyers.io

EDUCATION

Bachelor of Science in Computer Science   December 2014

University of Puget Sound - *Tacoma, Washington*

TECHNICAL SKILLS

Languages/Frameworks: Ruby on Rails, Ruby, Python 2.7, PostgreSQL, Flask, Java
Web Programming: HTML5/CSS3, SASS, jQuery, CSS Frameworks, CoffeeScript,
Natural Language Processing: spaCy, Parsey McParseface, BeautifulSoup, Stanford NLP libraries
Machine Learning: tensorflow, Log linear models

RELEVANT EXPERIENCE

Kotis Design – Software Engineer   *October 2017 – Present*
go.ko*tisdesign.com*
- Rebuilt the warehouse and inventory management PaaS application used to power distributed warehouses and ordering systems.
- Automated shipping process with the help of an external service API to simplify and optimize procedures that directly handles 109,000 shipments a year.
- Automated receiving process through tablet support and report generation to increase accuracy and speed of workers.
- Implemented features for creating dynamic customizable layouts for client merchandise portals.

Tyemill – Software Analyst   *September 2015 – October 2017*
www.tyemill.com
- Helped build a Machine Learning Service and created a suite to programmatically extract and parse data from financial documents to analyze various streams of data that empowered large-scale economic theory and development.
- Optimized our implementation of a natural language parser to reduce time it took to parse a document from 45 minutes to 12 seconds.

Tyemill – Full-Stack Software Developer Intern   *June 2015 – September 2015*

- Developed features for Ruby on Rails applications that support a broad base of uses, ranging from investment analysis to economic development.

PROJECTS

Debt Payoff Visualizer
https://debtonate.app
- Rails application to help you understand your debt and calculate when it will be gone

Recording Uploader App
https://github.com/angryadam/TFV-Uploader
- Rails application that allows bandmates and I to upload and stream video and audio
